

I'll Build Me A House

From Swing Thing

I'll build me a house
With walls and a floor,
Two great big windows and
One great big door.
I'll build me a house
With a roof made of slate,
A long garden path
And a big garden gate.
Here's what I'll put inside it:

A warm cosy bed for resting my head,
A warm cosy bed for resting my head,
A warm cosy bed for resting my head,
That's what I'll put inside it.

I'll build me a house
With walls and a floor,
Two great big windows and
One great big door.
I'll build me a house
With a roof made of slate,
A long garden path
And a big garden gate.
Here's what I'll put inside it:

A tap and a sink for making a drink,
A tap and a sink for making a drink,
A tap and a sink for making a drink,
A warm cosy bed for resting my head,
That's what I'll put inside it.

I'll build me a house...
Here's what I'll put inside it:

Some bread and some meat for something to eat,
Some bread and some meat for something to eat,
Some bread and some meat for something to eat,
A tap and a sink for making a drink,
A warm cosy bed for resting my head,
That's what I'll put inside it.

I'll build me a house...
Here's what I'll put inside it:

A dog or a cat to love and to pat,
A dog or a cat to love and to pat,
A dog or a cat to love and to pat,
Some bread and some meat for something to eat,
A tap and a sink for making a drink,
A warm cosy bed for resting my head,
That's what I'll put inside it.
