

I Need Some Music

From Swing Thing

When you're feeling weary and low,
Nowhere to turn and no way out,
Life is going terribly slow-ly,
Just jump up and shout it out!

I need some music
To rejuvenate my soul,
I need some music,
Can you help me rock and roll?
I need some music,
Feel the drum beat in the floor,
I need some music,
Shake the windows, shake the doors.

Take the music out of my day,
I'm sombre, sad and sorrowful,
Hear the rhythm and melody play,
I'm positively powerful!

I need some music,
Make me boogie, jump and jive,
I need some music,
Make my body come alive,
I need some music,
Let me holler, let me sing,
I need some music,
Wind it up and let it ring.

Sing me the song of the birds in the trees
Of the babbling brook and the roaring seas,
Sing me the song of the great outdoors
Where the wind blows free and the seabird soars.

I need some music
To rejuvenate my soul.....

I need some music,
Make me boogie, jump and jive.....
